

# Corporate Highlights

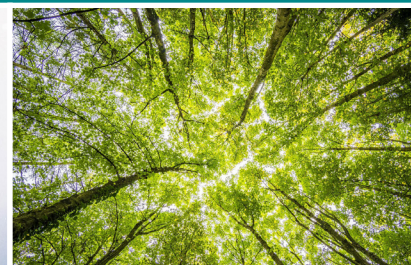

Established in 2001, DOC Development, Inc. is committed to providing value to its customers and partners through its exceptional service, and consistent quality. The management team possesses over 50 years of business, contracting, aviation, defense, and military experience.

DOC Development, Inc. is an SBA Certified 8(a) Contractor and Small, Minority Owned Business who is SAMs Registered and a GSA Contract Holder.

DDI's capabilities entail four principal areas: Medical Equipment and Supply, Industrial and Safety Supply, Janitorial Cleaning and Chemical Solutions, and Hospitality Wares. DDI's capabilities also include manufacturing, equipment testing, calibration, logistical support and other operational tasks.

DOC Development has provided innovative repair/maintenance and professional services solutions to the Department of Defense and other federal and private agencies. We provide expertise in the areas of joint readiness training, professional services, equipment repairs, distribution, mobility and accessibility, medical and safety supplies including personal protective equipment, and rehabilitation and maintenance.

DDI's expanded capabilities include a national/global focus that supports manufacturing, equipment testing, calibration, logistical support, and other operational tasks for range sustainment, modernization, new construction, and maintenance. DDI's abundant experiences, expertise, and skills allow the company to review, develop, and execute training policies, programs, procedures, plans, and implementation strategies related to military training, construction, repair, training support systems, products, and services. Globally, DDI capabilities have served customers in Germany, Bosnia, Macedonia, Kosovo, Hungary, and Korea. On a domestic level, it is not atypical for DDI to reach out, coordinate with, and provide support to Army leadership at the Department of Army Headquarters (HODA), Headquarters Training and Doctrine Command (TRADOC), United States Army Forces Command (FORSCOM), and Army Materiel Command (AMC) in the areas of long-range mission planning, training support, repair and maintenance of military equipment, logistics, consultant and advisory.
